ABOUT US

Limitless Innovations offers various cutting-edge retail products with a philosophy built around high-quality products and superior customer service. Our line of innovations provides you with high-end products to help simplify, charge, and organize your life. Our patented and award-winning SmartSpeed® Technology delivers the best in charging and we offer products that contribute to a lifestyle without boundaries.

IDEA & CONCEPT
We develop ideas that are influenced and inspired by solving consumers’ everyday needs.

RESEARCH & DESIGN
Our Developers and Designers work together to bring concepts to life and create top-of-the-line products that are certain to impress.

PROTOTYPE & ENGINEER
Each product is prototyped as we continue to improve its aesthetics and performance. We also work with various testing laboratories to ensure products are safe and certified for everyday consumer use.

MANUFACTURE & LAUNCH
Final products are manufactured, inspected, and shipped to store shelves.

CORPORATE VALUES

QUALITY | SAFETY | CERTIFICATION

Limitless Innovations is committed to provide QUALITY products by employing the best team of Inventors, Designers, and Engineers to bring concepts to market.

Limitless Innovations is devoted to bringing consumer SAFE products to the market by working with reputable 3rd party testing labs, such as UL, and maintains compliance of the CERTIFICATIONS by adhering to strict quarterly inspections.
PATENTED SMARTSPEED® TECHNOLOGY

In 2014, Limitless Innovations introduced the first ChargeHub that incorporated what is our now patented SmartSpeed® Technology. At that time, USB chargers used dedicated ports for various amperage outputs. This added considerable confusion to the user that had been typically less tech savvy. SmartSpeed® Technology simplified and enhanced multi-port USB charging by providing non-dedicated USB charging ports, each of which could deliver up to 2.4 amps to any port and deliver an optimal and safe charge to most devices. SmartSpeed® Technology was the first in perfecting this concept of allowing a device to dictate the proper charge rate, regardless of what type or model of the connected device. SmartSpeed® Technology is incorporated into each of the ever-evolving ChargeHub product line!

SmartSpeed® Technology ensures each device is being charged SAFELY and at an optimal speed.
CHARGEHUB X3
USB PORTS: 3
DUAL VOLTAGE INPUT: 100 - 240V
USB OUTPUT: 5V / 5A
MAX CURRENT PER PORT: 2.4A
TOTAL POWER: 25W
MSRP: $29.99

CHARGEHUB X5
USB PORTS: 5
DUAL VOLTAGE INPUT: 100 - 240V
USB OUTPUT: 5V / 8A
MAX CURRENT PER PORT: 2.4A
TOTAL POWER: 40W
MSRP: $39.99

COLORS
X7 SIGNATURE
USB PORTS: 7
DUAL VOLTAGE INPUT: 100V - 240V
USB OUTPUT: 5V / 9A
MAX CURRENT PER PORT: 2.4A
TOTAL POWER: 45W

MSRP: $59.99
